

FY 2027

**Community Project Funding
Resource Guide**

Updated: February 28, 2026

Congress of the United States
Washington, DC 20515

Dear Friend,

I am pleased to share the following resource guide regarding how to request Community Project Funding through the annual appropriations process. This guide is an effort to streamline the process and provide you with the best information available in a clear and concise format. My team and I are committed to creating a fair and equitable process that will be beneficial to Maryland's Sixth Congressional District.

In this guide, you will find an overview of the appropriations process, the Community Project Funding process, answers to many frequently asked questions, my staff contact information, and a brief overview of alternate federal funding sources.

My team and I are looking for projects and requests that will benefit those who live and work in Maryland's Sixth District. These projects should fill a clear and present need in the community, be administered by local government or eligible nonprofit leadership, and enjoy significant support from the community.

As you prepare your requests, please keep in mind that my office will receive far more Community Project Funding requests than can be fulfilled. As a result, many deserving, appropriate, and eligible projects will not be provided federal assistance in Fiscal Year 2027. That is why it is extremely important that every project and requester pursue other grant and federal/state/local funding opportunities where available, including applying for Congressionally Directed Spending from Senators Van Hollen and Alsobrooks. My team and I are here to help you secure this funding.

Thank you again for your interest in this year's Community Project Funding process. I look forward to working with you to bring needed federal resources to Maryland's Sixth Congressional District.

Sincerely,

April McClain Delaney
Member of Congress

Staff Contact List

Please submit all **FY 2027 Appropriations requests** through the form on my office's website at mclaindelaney.house.gov/services/appropriations-requests

- **The deadline to submit Programmatic and Language Requests will be March 11.**

The application and submission form for all **FY 2027 Community Project Funding requests** can be found on my office's website at mclaindelaney.house.gov/services/appropriations-requests

- **The deadline to submit a Community Project Funding request for FY 2027 will be March 9**

***NOTE*: If you need more time to procure pieces of Community Support, please let my team know in advance. My team will work with each requestor on an individual and as-needed basis.**

For specific questions, please reach out to my staff below:

- Annaston Cree, District Director
 - Annaston.Cree@mail.house.gov

Overview of the Appropriations Process

Each year, the United States Congress considers and enacts annual appropriations bills, which provide the federal government with the funding it needs to operate. These bills fund numerous activities, including government operations, medical research, national defense, infrastructure, and education. The appropriations process begins with the release of the President's Budget request, due the first Monday in February but Presidents of both parties typically release a late budget. Then the authorizing and appropriations committees hold hearings to consider the President's request before writing their bills - this process typically occurs during the Spring.

As a member of the U.S. House of Representatives, I want to ensure that the federal government invests in the policies and programs that help move our communities, state, and country forward. That's why I must hear directly from you about what our federal budget should prioritize.

You or your organization may submit programmatic or language requests. Programmatic requests include funding for specific federal programs that are important to you or your organization. Language requests include specific policy directives to federal agencies.

We ask that you submit your programmatic or language requests by our deadline which will be posted on our website. You and your organization should begin developing your request well in advance to ensure that your request is submitted properly and tailored to the needs of your project. As you develop your request, please feel free to contact my staff and use this resource guide to ensure your project request meets all requirements.

To submit a request, please complete the form on my website at mcclaindelaney.house.gov/services/appropriations-requests. We cannot guarantee that requests submitted after the deadline noted on my form and the website will be considered. If you have problems or questions while completing these forms, please feel free to contact my staff. My staff is unable to forward request forms to other Congressional or Senate offices.

My team will review each request. The entire appropriations process can take several months. Appropriations bills approved by the House Appropriations Committees must be agreed to by both the House and Senate, and signed into law by the President before the end of the fiscal year on September 30th; however, the process often extends beyond this date (using a process called a Continuing Resolution).

Your patience during this lengthy and arduous process is greatly appreciated.

Overview of the Community Project Funding Process

The House Appropriations Committee will be accepting Community Project Funding requests for Fiscal Year 2027. These requests will be funded through numerous government funding bills.

My team and I are looking forward to recommending important local projects for federal funding this year. However, it is important that you know how this process will work this year.

First, you should know that my team and I expect to receive hundreds of funding requests. While it's my goal to fund as many projects as possible, Members historically can only submit **20 requests** to fund Community Projects, and we cannot guarantee what will be funded.

Second, any request you make must satisfy **every** requirement laid out by the House Appropriations Committee. Generally, accounts have the same requirements and application needs as regular federal grants of the same name. My team also encourages you to apply for the grant of the same name separately from this process.

Most importantly, each request must include demonstrated community support. You will be required to submit evidence of community support, including (but not limited to):

- Letters of support from elected community leaders
- Press articles highlighting the need for the specific project
- Resolutions passed by local/county/state governments
- Projects listed on community development plans, state intended use plans, and other publicly available planning documents
- Support from local newspaper editorial boards, etc.

Additional requirements are listed below:

- A financial disclosure statement from myself certifying that neither my immediate family nor I have any financial interest in the proposed project.
- Projects must be tied to existing Federal Authorization Law.
- No funds can be used by for-profit recipients.
- Matching funding must be available for each project from the state/local government (matching funding does NOT have to be in hand, but officials must have a plan to fund to meet this requirement).
- Each project is funded only for FY 2027.

In the interest of transparency, all Members are required to post all Community Project Funding requests submitted to the committee on their website. The posting must include the name of the proposed recipient, the address, the amount of the request, and an explanation of the purpose and justification for the use of taxpayer funds.

Data and Lessons from previous years, Changes for FY27

For the FY26 Community Project Funding Process, the House Appropriations Committee included 5,027 projects for a total of \$8,809,035,004. The average award in FY26 was \$1,691,767.

The majority of projects requested committee-wide were in the **Transportation, Housing ,and Urban Development Subcommittee** (namely, Economic Development Initiative grants), **Interior Subcommittee** (namely, STAG Grants), and **Commerce, Justice, Science Subcommittee**.

Included in this guide will be the total funding, average funding, median of funding, and number of requests for each subcommittee and account.

The House Appropriations Committee values quality projects, so requests that are of high quality and well put together will have a higher chance of being funded.

It is very important to note that in FY24, the current House Leadership unilaterally cut projects requested by members of the Democratic party. My team and I learned that projects requested by Democratic Members were, on a project-to-project basis, on average cut by 40%. In total, Democratic Members' projects were cut 65% *based on the amount requested against the amount awarded*. In turn, Republican Members' projects were on average cut by 19% and 28% against the amount requested. Many subcommittees capped the amount that a Democratic Member could be awarded. Those same caps did not apply to Republican Members. This trend continued in FY26, and is expected to remain in FY27

Due to changes in how House Leadership appropriated money over the last two fiscal years, my team asks that when making a request, please request an amount you can conceivably use, even if that number seems higher than the average award for that account. Seeing as many project totals were cut by House Leadership, requesting a higher amount with the understanding it may be cut down may be a good strategy for getting closer to what you need for that project.

Additionally, the House Appropriations Committee under new Leadership made other significant changes to the Community Project Funding Process for FY24 that have continued. The changes are as follows:

- The total amount of money available to spend has been cut to .5% of discretionary spending (in past years it has been 1%). Project costs could end up limited to partial funding of requests.
- Projects must now be tied to existing federal authorization law (more details can be found in the account descriptions).

- Museums, Memorials, and “Commemorative” Projects are no longer eligible for funding.
- Eligibility for Non-Profits has been limited in certain cases (more details can be found in the account descriptions).
- Accounts previously available in **Financial Services and General Government, and Defense Subcommittees** are no longer available for use, and thus unable to be requested.

As more detail becomes available, this guide will be updated.

Community Project Funding Eligible Accounts

Agriculture Subcommittee

In FY26

Total Funding: \$642,959,000

Average Project Cost: \$1,260,704

Median Project Cost: 1,000,000

Number of Requests: 510

Average Project Award, Democrat: \$873,356

Average Project Award, Republican: \$1,641,176

Cap for Democrat Projects: \$1,015,000

For each Community Project Funding request, Requestors will be asked to respond to a series of questions intended to provide transparency and ensure the project is a valuable use of taxpayer funds.

All CPF requests must meet applicable eligibility requirements for the program in which the request is made, including applicable underlying statutory and regulatory requirements (e.g., cost share). Any CPFs that are funded in an appropriations bill will need to apply to USDA to receive the award. The application will be reviewed for compliance prior to the official award. To ensure your projects meet eligibility requirements for the Rural Development and Natural Resources Conservation Service accounts, you must consult with your respective State Rural Development or State Conservation office which can be found here:

Rural Development: <https://www.rd.usda.gov/about-rd/state-offices>

Natural Resources Conservation Services: <https://www.nrcs.usda.gov/state-offices>

Failure to confirm eligibility with the State Offices may result in a project not being considered.

Here are the specific pieces of information needed for the Agriculture bill:

1. The website address of the proposed recipient.
2. Has the recipient secured all necessary funds to complete the project, including non-federal cost share requirements?
3. For Rural Development projects, what is the federal cost share / grant amount being requested for the project?

4. For Rural Development projects, what is the total project cost?
5. For Rural Development projects, will this project be phased?
6. For Rural Development projects, is the project for an eligible purpose and does it meet all eligibility requirements, with the exception of any Median Household Income requirements, under current law?
7. Does the entity plan to make grants to other entities from the funds provided and, if so, to whom?
8. Why is the project a priority for the district? Briefly explain the community benefits.
9. Has the project received Federal funding before and, if so, how much, when, and from which agency or agencies and program(s)?
10. Have you contacted the State Rural Development Office/State Conservation Office to discuss the project and confirm eligibility? (If not, it is required to ensure project eligibility.)
11. With limited funding, if the project cannot be fully funded and must be significantly reduced, is it still a viable project and is that acceptable to the recipient? [yes/no]
12. For ARS B&F only, is it an existing USDA-owned and operated facility? (It must be, in order to be eligible.)
13. For ARS B&F only, what is the estimated start date of the project? How soon could the feasibility/engineering design phase commence? [mm/yy]
14. For ARS B&F only, does the project have distinct and separable phases?
15. For ARS B&F only, what is the estimated completion date of the project? When does the completion of construction occur? [mm/yy]
16. For Conservation Operations requests only, briefly describe how the project will reduce soil erosion, enhance water supplies, improve water quality, increase wildlife habitat, or other objectives that will help conserve, maintain, and improve natural resources.
17. For Water and Waste requests only, provide relevant information, such as the number of households, businesses, or farms that would be served.

Department of Agriculture

Community Facilities Grants (Rural Housing Service)

In FY 26

Total Funding: \$467,323,407

Average Project Cost: \$1,180,110

Median Project Cost: \$1,000,000

Number of Requests: 396

All projects submitted must be for the purposes authorized in Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a).

Grants to purchase, construct, or improve essential community facilities, to purchase equipment, and pay other related project expenses. Examples of eligible projects include but are not limited to: medical or dental clinics, healthcare facilities, police or fire departments, and public works vehicles. Priority will be given by the committee to essential projects, such as those focused on public health and safety. All projects must serve a rural area as specified in 7 CFR 3570.53 (rural areas including cities, villages, townships, and Federally Recognized Tribal Lands with no more than 20,000 residents), and the Member's request must demonstrate community support. Requests should ensure that their request provides the fullest description of the project as possible. Submissions should include details on all proposed uses of funds, activities that will occur, a timeline, and detailed information on the complete service territory, including the median household income of the proposed project.

Please review all program regulations carefully, most notably:

- Cost share requirements. The Community Facilities program has a cost share calculated on a graduated scale. The applicant should be aware of any cost share as documented in 7 CFR 3570.63(b).
- In-kind contributions and other federal formulas or grant 6 resources cannot be counted towards match requirements.

Community Facilities grants cannot be used to pay initial operating expenses or annual recurring expenses, refinance existing debt, pay interest, build or repair facilities in non-rural areas, or pay for construction costs of facilities that will be used for commercial rental space.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility and non-federal cost share requirements. For the fiscal year 2024, the average Community Facilities CPF award was about \$1.2 million.

Distance Learning and Telemedicine Grants

In FY 26

Total Funding: \$10,157,029

Average Project Cost: \$1,269,629

Median Project Cost: \$1,000,000

Number of Requests: 8

All projects submitted must be for the purposes authorized in Section 2331 of the Food, Agriculture, Conservation, and Trade Act of 1990, 7 U.S. Code section 950aaa.

The Distance Learning and Telemedicine program (DLT) helps rural residents better utilize the enormous potential of modern telecommunications and the internet for education and healthcare, two critical components of economic and community development. The DLT program helps rural communities acquire the technology and training necessary to connect educational and medical professionals with students, teachers, and patients in rural areas.

Grants may be used for audio and video equipment, broadband facilities that support distance learning or telemedicine (not actual broadband), computer hardware or network components/software, and acquisition of instructional programming.

All requests are subject to all the regulations governing the program which can be found at 7 CFR Part 1734. **The program requires a 15% match** that cannot come from another federal source. The State Rural Development Office is a valuable resource to answer program questions, including eligibility. Requestors are strongly encouraged to provide as much detail as possible on how the award will be utilized, what equipment of service will be acquired and any information on population(s) served. The program is intended to serve rural areas with populations of 20,000 or less.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility. For fiscal year 2026, the average DLT CPF award was \$1,200,000.

Rural Water and Waste Disposal Grants

In FY 26

Total Funding: \$109,103,564

Average Project Cost: \$1,515,327

Median Project Cost: \$1,007,500

Number of Requests: 72

All projects submitted must be for the purposes authorized in Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a)(2).

The Water and Waste Disposal Grant Program may be used to finance the acquisition, construction, or improvement of drinking water sourcing, treatment, storage and disposal; sewer collection, transmission, treatment and disposal; solid waste collection, disposal, and closure; and storm water collection, transmission, and closure.

Requestors are strongly encouraged to provide as much detail as possible on the number of households and businesses served, and details of the exact work to be completed. Eligible entities include rural areas and towns with a population of 10,000 or less and Tribal lands in rural areas. Potential recipients will be required to provide a 25% non-federal cost share.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility. For fiscal year 2024, the average Water and Waste CPF award was nearly \$1.5 million

Agricultural Research Service, Buildings and Facilities

In FY 26

Total Funding: \$21,000,000

Average Project Cost: \$3,000,000

Median Project Cost: \$3,000,000

Number of Requests: 7

All projects submitted must be for the purposes authorized in 7 U.S. Code section 2250.

The Agricultural Research Service (ARS) owns and operates laboratories and facilities across the United States. Many of these laboratories/facilities are decades old, have outlived their functional lifespan, and are badly in need of major repairs, renovation, or replacement. Facility requests must be for ARS-owned or operated facilities. Requests can assist in the acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the agricultural research programs of the Department of Agriculture. It is strongly encouraged that Community Project Funding requests include details on the research to be conducted, why the research is a high priority, as well as details on the modernization and why it is critical in carrying out the research. Facility requests must be for ARS-owned facilities or for facilities that are already partnering with ARS.

Universities seeking new agricultural and/or veterinary facilities or labs are not eligible.

Requested funding for new facilities that do not have an existing ARS tie will not be considered.

<https://www.ars.usda.gov/about-ars/>

Natural Resources Conservation Service, Conservation Operations

In FY 26

Total Funding: \$34,625,000

Average Project Cost: \$1,331,731

Median Project Cost: \$1,000,000

Number of Requests: 26

All projects submitted must be for the purposes authorized by the Soil Conservation and Allotment Domestic Act of 1935, 16 U.S. Code sections 590a-590d and 590f-g.

The Natural Resources Conservation Service (NRCS) supports private landowners, conservation districts, and other organizations to conserve, maintain, and improve the Nation's natural resources. Conservation Operations has four major program components: Conservation Technical Assistance, Soil Survey, Snow Survey and Water Supply Forecasting, and Plant Materials Centers. Examples of specific objectives include reducing soil erosion, improving soil health, enhancing water supplies, improving water quality, increasing wildlife habitat, and reducing damage caused by floods and other natural disasters.

It is strongly encouraged to provide details on the work to be done, including if the project will conduct surveys, investigations, or research, and if there is a plan to publish the results of any such work. Requests should also describe any preventive measures to be taken, such as engineering operations, methods of cultivation, or changes in the use of land.

For FY25, the Subcommittee will only consider projects for funding recipients that are State, local, and Tribal organizations, or public conservation districts. **Non-profit recipients will not be considered. Purchase of land and/or fixed equipment are not eligible activities. Projects must have a direct tie to agriculture and/or farmland.**

The State Conservationist is a valuable resource to answer program questions, including eligibility. House CPFs in the account averaged about \$1.3 million in FY24.

Commerce, Justice, and Science Subcommittee

In FY 26

Total Funding: \$1,050,000,000

Average Project Cost: \$1,038,576

Median Project Cost: \$1,000,000

Number of Requests: 1011

Average Project Award, Democrat: \$817,298

Average Project Award, Republican: \$1,409,751

Cap for Democrat Projects: \$1,031,000

Non-profit organizations will not be an eligible recipient for a CJS CPF unless the recipient is:

- A college or university
- In the instance of a Byrne JAG project, the recipient is a law enforcement focused nonprofit.
For more information, please refer to the Byrne JAG detailed guidance

Department of Justice

State and Local Law Enforcement Assistance - Byrne Justice Assistance Grant (JAG)

In FY 26

Total Funding: \$402,152,696

Average Project Cost: \$864,845

Median Project Cost: \$871,701

Number of Requests: 465

All projects submitted must be for activities consistent with, and supportive of, the Office of Justice Programs' mission and aligned with one or more of the purposes described in the Byrne Justice Assistance Grants (JAG) program, section 501 of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10152).

34 US.C. 10152(d) provides:

- (d) Prohibited uses: Notwithstanding any other provision of this Act, no funds provided under this part may be used, directly or indirectly, to provide any of the following matters:
 - (1) Any security enhancements or any equipment to any nongovernmental entity that is not engaged in criminal justice or public safety.

- (2) Unless the Attorney General certifies that extraordinary and exigent circumstances exist that make the use of such funds to provide such matters essential to the maintenance of public safety and good order-
 - (A) vehicles (excluding police cruisers), vessels (excluding police boats), or aircraft (excluding police helicopters);
 - (B) luxury items;
 - (C) real estate;
 - (D) construction projects (other than penal or correctional institutions); or
 - (E) any similar matters.

Awarded grants will be subject to the requirements of 2 CFR Part 200 and the DOJ Grants Financial Guide.

Allowable costs are those costs consistent with the principles set out in 2 CFR Part 200, Subpart E, and those permitted by the grant program authorizing legislation.

Byrne JAG Grants assist state, local, and tribal law enforcement efforts to prevent crime, improve the criminal justice system, provide victims' services, and other related activities. Community projects funded under this category must comply with the requirements cited in JAG statutes and be consistent with U.S. Department of Justice guidance for the program. Below are the links to the Department's guidance and frequently asked questions regarding Byrne-JAG:

<https://bja.ojp.gov/program/jag/overview>

<https://bja.ojp.gov/doc/jag-prea-faqs.pdf>

In addition, the Chair will not support the use of Byrne Justice Community Project Funding for the following:

- Initiatives that involve the distribution of drug paraphernalia.
- Initiatives that undermine the 2nd Amendment or infringe upon rights guaranteed by the Constitution without due process of law.
- Initiatives that appear to be anti-law enforcement or unrelated to criminal justice.
- Larger projects for the construction or renovation of penal or correctional institutions that will exceed the capability of single-year funding.

In the event of limited funding, the Chair will prioritize projects focused on improving the effectiveness of law enforcement, increasing officer safety, curbing the opioid crisis, and other strategic priorities.

Projects with non-profit recipients may be eligible, so long as the purpose is to carry out work that closely aligns with the purposes of the Byrne JAG program. Such projects will be closely examined.

Awarded projects will be subject to the requirements of 2 CFR Part 200 and the [DOJ Grants Financial Guide](#).

Allowable costs are those costs consistent with the principles set out in 2 CFR Part 200, Subpart E, and those permitted by the grant program's authorizing legislation.

Requestors submitting Byrne JAG project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

- Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
- Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
- Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.

Additional questions that may be helpful for submission:

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- Is the requested project currently authorized in law? If yes, please provide a specific legal citation of such authorization.
- Is the purpose of this request the construction or renovation of a building? [yes/no]
- Are the proposed project activities consistent with the activities of the Federal agency? [yes/no]
 - If yes, please describe how these activities are consistent with the activities of the Federal Agency. If not, why is the project being requested?
- Has the project been funded in the past? [yes/no]
 - If the project has been funded in the past, how much funding has been provided to date?
 - If the project has been funded in the past, were such funds provided for discrete, severable activities?
- Please specify any non-Federal sources of funding that have been or are fully anticipated to be applied toward the project, including any dollar amounts and timelines for funding.
- Is the proposed recipient currently in material non-compliance of a prior grant award made by the proposed Federal funding agency? [yes/no]

- Is this proposed project a priority for the local community? [yes/no]
 - If the project is not a priority for the local community, why is it being requested?
- Please describe the current developmental status of this project.
- What is the estimated impact of this project, e.g. number of jobs created/sustained, number of community members served, other projected impacts?
- Is the intended recipient a for-profit entity? [yes/no]
- Are you aware of another Member making a request for this same project? Have you submitted this request to any other Member of Congress or Senator? [yes/no]
- Regarding this request, please provide any additional information that would be useful for the Appropriations Committee to have.
- Is this request consistent with all current statutory and regulatory requirements of Byrne Justice Assistance Grant recipients and subrecipients? [yes/no]
- Is this project intended to serve primarily youth under age 18? [yes/no]
- Is this request to fund the acquisition of property or the construction or renovation of a building? [yes/no]
- Has the intended recipient received any COPS or Byrne-JAG funds at any time in the past ten years? [yes/no]
 - If yes, in what fiscal years and for what purposes?

Community Oriented Policing Services (COPS) - Technology and Equipment

In FY 26

Total Funding: \$282,654,413

Average Project Cost: \$1,013,098

Median Project Cost: \$1,000,000

Number of Requests: 279

All projects submitted must be aligned with the purposes of section 1701(b)(8) of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10381(b)(8)).

The Chairman will consider projects to develop and/or acquire technologies and equipment, including interoperable communications technologies, modernized criminal record technology, and forensic technology, to assist State, Tribal, and local law enforcement agencies, including by reorienting the emphasis of their activities from reacting to crime to preventing crime and training law enforcement officers to use such technologies.

This funding will allow recipients the opportunity to establish and enhance any of a variety of technical equipment and/or programs to encourage the continuation and enhancement of community policing efforts within their jurisdictions. These projects should help improve police

effectiveness and the flow of information among law enforcement agencies, local government service providers, and the communities they serve.

Eligible recipients for COPS Technology and Equipment Community Project Funding are State, Tribal, and local law enforcement agencies. Non-profits are not eligible for COPS Technology and Equipment Community Project Funding. Funding for building construction or renovation projects is not an eligible use of COPS Technology and Equipment Community Project Funding.

Requestors submitting COPS project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

- Is the recipient a state, Tribal, or local law enforcement agency?
- Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
- Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.

Additional Questions that may be helpful for submission:

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- Is the requested project currently authorized in law? If yes, please provide a specific legal citation of such authorization.
- Are the proposed project activities consistent with the activities of the Federal agency? [yes/no]
 - If yes, please describe how these activities are consistent with the activities of the Federal Agency. If not, why is the project being requested?
- Has the project been funded in the past? [yes/no]
 - If the project has been funded in the past, how much funding has been provided to date?
 - If the project has been funded in the past, were such funds provided for discrete, severable activities?
- Please specify any non-Federal sources of funding that have been or are fully anticipated to be applied toward the project, including any dollar amounts and timelines for funding.
- Is the proposed recipient currently in material non-compliance of a prior grant award made by the proposed Federal funding agency? [yes/no]

- Is this proposed project a priority for the local community? [yes/no]
 - If the project is not a priority for the local community, why is it being requested?
- Please describe the current developmental status of this project.
- What is the estimated impact of this project, e.g. number of jobs created/sustained, number of community members served, other projected impacts?
- Is the intended recipient a for-profit entity? [yes/no]
- Are you aware of another Member making a request for this same project? Have you submitted this project to another Member of Congress or Senator? [yes/no]
- Regarding this request, please provide any additional information that would be useful for the Appropriations Committee to have.
- Is the purpose of this request the construction or renovation of a building? [yes/no]
- Has the intended recipient received any COPS or Byrne-JAG funds at any time in the past ten years? [yes/no]
 - If yes, in what fiscal years and for what purposes?

Department of Commerce

NIST Scientific and Technical Research and Services (STRS)

In FY 26

Total Funding: \$272,611,366

Average Project Cost: \$1,497,864

Median Project Cost: \$1,031,000

Number of Requests: 182

All projects submitted must be for activities consistent with, and supportive of, NIST's mission and aligned with one or more of the functions and activities described in section 272 of title 15, United States Code.

Funding must be for activities consistent with and supportive of NIST's mission and within its authorities, such as STEM education activities, scientific research, or other activities that support American manufacturing and industry.

Note: Funding for building construction or renovation projects is not an eligible use of NIST Scientific and Technical Research Community Project Funding.

Non-profit colleges and universities are the **only eligible non-profit recipients** of a NIST CPF.

Requestors submitting NIST STRS community project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds. Note: Funding for building construction or renovation projects is not an eligible use of NIST Scientific and Technical Research Community Project Funding.

- Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
- Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
- Please provide the location of this project, in the format ‘City (or County), State’. This location will be printed in the public disclosure table. Examples include: ‘Hazard, KY’ or if the project is not located within a city, but rather a county: ‘Perry County, KY’.

Additional questions that will be helpful when submitting:

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- Is the requested project currently authorized in law? If yes, please provide a specific legal citation of such authorization. Are the proposed project activities consistent with the activities of the Federal agency? [yes/no]
 - If yes, please describe how these activities are consistent with the activities of the Federal Agency. If not, why is the project being requested?
- Has the project been funded in the past? [yes/no]
 - If the project has been funded in the past, how much funding has been provided to date?
 - If the project has been funded in the past, were such funds provided for discrete, severable activities?
- Please specify any non-Federal sources of funding that have been or are fully anticipated to be applied toward the project, including any dollar amounts and timelines for funding.
- Is the proposed recipient currently in material non-compliance of a prior grant award made by the proposed Federal funding agency? [yes/no]
- Is this proposed project a priority for the local community? [yes/no]
 - If the project is not a priority for the local community, why is it being requested?
- Please describe the current developmental status of this project.
- What is the estimated impact of this project, e.g. number of jobs created/sustained, number of community members served, other projected impacts?

National Oceanic and Atmospheric Administration (NOAA), Coastal Zone Management

In FY 26

Total Funding: \$55,750,390

Average Project Cost: \$995,543

Median Project Cost: \$1,031,000

Number of Requests: 56

All projects submitted must be for activities consistent with, and supportive of, NOAA's mission and aligned with one or more of the purposes described in the Coastal Zone Management Act of 1972 (16 U.S.C. § 1451 et seq.).

Community project funding for NOAA will only be considered within the Coastal Zone Management account. This account does not fund construction projects, and as such, any such requests will not be considered. Requests for funding will be considered for research, demonstration, or education projects performed by external partners or for prioritizing NOAA internal funds for geographically specific projects. Any such project must be aligned with NOAA's mission and within their existing authorities. The subcommittee will not entertain requests for the Office of Marine and Aviation Operations.

Coastal Zone Management funds are distributed to states on a formula basis and will not be considered for community project funding. NOAA Coastal Zone Management projects are subject to any applicable cost-share required by law under the Coastal Zone Management Program.

Historically, the Committee has not funded vehicles or building construction or renovation as part of community project funding under this account.

Non-profit colleges and universities are the **only eligible non-profit recipients** of a NOAA CPF.

Requestors submitting NOAA Coastal Zone Management community project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

- Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]

- Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
- Please provide the location of this project, in the format ‘City (or County), State’. This location will be printed in the public disclosure table. Examples include: ‘Hazard, KY’ or if the project is not located within a city, but rather a county: ‘Perry County, KY’.

Additional Questions that may be helpful when submitting.

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- Is the requested project currently authorized in law? If yes, please provide a specific legal citation of such authorization.
- Are the proposed project activities consistent with the activities of the Federal agency? [yes/no]
 - If yes, please describe how these activities are consistent with the activities of the Federal Agency. If not, why is the project being requested?
- Has the project been funded in the past? [yes/no]
 - If the project has been funded in the past, how much funding has been provided to date?
 - If the project has been funded in the past, were such funds provided for discrete, severable activities?
- Please specify any non-Federal sources of funding that have been or are fully anticipated to be applied toward the project, including any dollar amounts and timelines for funding.
- Is the proposed recipient currently in material non-compliance of a prior grant award made by the proposed Federal funding agency? [yes/no]
- Is this proposed project a priority for the local community? [yes/no]
 - If the project is not a priority for the local community, why is it being requested?
- Please describe the current developmental status of this project.
- What is the estimated impact of this project, e.g. number of jobs created/sustained, number of community members served, other projected impacts?
- Is the intended recipient a for-profit entity? [yes/no]
- Are you aware of another Member of Congress making a request for this same project? Have you submitted this request to another Member of Congress or Senator? [yes/no]
- Regarding this request, please provide any additional information that would be useful for the Appropriations Committee to have.
- Has the intended recipient received any competitive grant funding or other funding from NOAA at any time in the past ten years? [yes/no]

- If yes, in what fiscal years and for what purposes?
- For any science research project request, please provide the name of the individual who is anticipated to be the Principal Investigator for the research project, as well as a link to such person's curriculum vitae, and a list of this person's peer-reviewed publications related to the topic of the requested research project.

National Aeronautics and Space Administration (NASA)

NASA Safety, Security, and Mission Services

In FY 26

Total Funding: \$36,831,135

Average Project Cost: \$1,270,039

Median Project Cost: \$1,031,000

Number of Requests: 29

All projects submitted must be for activities advancing the purposes described in section 20102 of title 51, United States Code. Projects should focus on science, education, research, and technology development related to NASA's mission.

Funding for building construction or renovation projects, as well as Medical Research Projects will *not* be considered for community project funding.

Non-profit colleges and universities are the **only eligible non-profit recipients** of a NASA CPF.

Requestors submitting NASA Safety, Security, and Mission Services community project requests are required to submit answers to the following additional questions. Failure to complete all required questions will result in an incomplete project request. Incomplete project requests will not be considered for community project funds.

- Is the recipient entity a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986? [yes/no]
- Can this project spend a smaller amount of appropriated funds within 12 months of the enactment of the appropriations act? [yes/no] If yes, please provide any details that may be helpful for understanding the scalability of the project.
- Please provide the location of this project, in the format 'City (or County), State'. This location will be printed in the public disclosure table. Examples include: 'Hazard, KY', or if the project is not located within a city, but rather a county: 'Perry County, KY'.

Additional Questions that may be helpful for submission:

- Please describe, with as much specificity as possible, the overall objectives of the proposed project and how the requested funds would be spent to achieve those goals.
- Is the requested project currently authorized in law? If yes, please provide a specific legal citation of such authorization.
- Are the proposed project activities consistent with the activities of the Federal agency? [yes/no]
 - If yes, please describe how these activities are consistent with the activities of the Federal Agency. If not, why is the project being requested?
- Has the project been funded in the past? [yes/no]
 - If the project has been funded in the past, how much funding has been provided to date?
 - If the project has been funded in the past, were such funds provided for discrete, severable activities?
- Please specify any non-Federal sources of funding that have been or are fully anticipated to be applied toward the project, including any dollar amounts and timelines for funding.
- Is the proposed recipient currently in material non-compliance of a prior grant award made by the proposed Federal funding agency? [yes/no]
- Is this proposed project a priority for the local community? [yes/no]
 - If the project is not a priority for the local community, why is it being requested?
- Please describe the current developmental status of this project.
- What is the estimated impact of this project, e.g. number of jobs created/sustained, number of community members served, other projected impacts?
- Is the purpose of this request the construction or renovation of a building? [yes/no]
- Is the intended recipient a for-profit entity? [yes/no]
- Are you aware of another Member making a request for this same project? Have you submitted this project to any other Member of Congress or Senator? [yes/no]
- Regarding this request, please provide any additional information that would be useful for the Appropriations Committee to have.
- Is the project intended to serve primarily youth under age 18? [yes/no]
- Has the intended recipient received any competitive grant funding or other funding from NASA at any time in the past ten years? [yes/no]
 - If yes, in what fiscal years and for what purposes?
- For any science research project request, please provide the name of the individual who is anticipated to be the Principal Investigator for the research project, as well as a link to such person's curriculum vitae, and a list of this person's peer-reviewed publications related to the topic of the requested research project.

Energy and Water Development Subcommittee

In FY 26

Total Funding: \$1,719,627,000

Average Project Cost: \$18,293,904

Median Project Cost: \$3,000,000

Number of Requests: 94

Average Project Award, Democrat: \$1,965,971

Average Project Award, Republican: \$25,292,914

The subcommittee will only be considering requests in the following accounts:

U.S. Army Corps of Engineers

- Investigations
- Construction
- Mississippi River and Tributaries
- Operation and Maintenance

U.S. Bureau of Reclamation

- Water and Related Resources

Not all programs within these accounts will be open for requests. If the project is **not** an individually authorized project or a project under the Corps of Engineers Continuing Authorities Program, please let my team know prior to submitting your request.

A Community Project Funding request is only necessary to request an increment of funding or scope above and beyond the President's budget request.

U.S. Army Corps of Engineers and Bureau of Reclamation

All requests for the Corps of Engineers (Corps) and Bureau of Reclamation (Reclamation) accounts listed above should reflect a funding amount that can be realistically utilized in FY26. This is referred to as the project's "capability" for FY25. All projects will be sent to the relevant agency for technical assistance, including regarding project capability.. It is possible that approved Community Project Funding requests will be funded at a level lower than the requested level.

If the scope of the request varies from the President's budget request (i.e. the Member is seeking an

amount above the budget request amount), then the request must be submitted as a CPF request.

If the project is not included in the President's budget request, the Member must submit it as a CPF request.

Please note that for the Corps, the Subcommittee may provide funding for a very limited number of new start projects, if any, in the Investigations, Construction, and Mississippi River and Tributaries accounts. While requests for new starts in these accounts will be accepted, please consider this limitation when making requests.

Please note that for the Corps, the Subcommittee may provide funding for a limited number of Environmental Infrastructure (EI) projects and Continuing Authorities Program (CAP) projects, if any, in the Construction account. While requests for specific projects will be accepted, please consider these limitations when making requests. Please note that for Reclamation, projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 (Public Law 114–322) will not be accepted.

Requestors are encouraged to keep in mind that only a very limited number of new start projects will be considered, if any, in the Investigations, Construction, and Mississippi River and Tributaries accounts. Similarly, requestors are encouraged to keep in mind that only a very limited number of Environmental Infrastructure projects, if any, will be considered in the Construction account. A very limited number of Continuing Authorities Program projects will be considered in the Construction account. Projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 (Public Law 114-322) will not be accepted.

Supplemental Questions:

1. Please provide the official project name as assigned by the Corps or Reclamation. You can find the project name from the previously mentioned lists of authorized projects or through working in consultation with your local Corps District or Reclamation Region office.
 - a. If the project is an individually authorized project or a project under the Corps of Engineers Continuing Authorities Program, include the statutory citation.
2. What is the Fiscal Year 2026 capability?
 - a. This amount is the maximum funding level the subcommittee will consider for inclusion in the appropriations bill. The existence of a capability amount does not guarantee that funding level – or any funding – will be able to be accommodated in

the appropriations bill; it simply indicates the maximum amount that can be considered for inclusion.

- b. For Fiscal Year 2026, the Corps will express capability by providing a range that represents a project's minimum and maximum possible capability.
 - c. If the Corps provides a capability range prior to the release of the Fiscal Year 2026 President's budget request, any funding recommended in the budget request should be deducted from both numbers.
 - d. If the Corps can provide only a capability range prior to the CPF submission deadline, Members should consider basing their requests on the higher of the two numbers. Eventually, the true Fiscal Year 2026 capabilities for projects will become known, and the Committee will not exceed those amounts regardless of the amount requested. However, requesting the higher number of the range allows the Committee to consider all funding options as the technical data are refined throughout the Fiscal Year 2026 cycle.
 - e. Regular communication with the relevant Corps District is essential. Capability expressions could fluctuate throughout the fiscal year. Corps Districts and Members should be proactive in their outreach with each other to validate capability expressions.
3. Please provide the project authorization. You can contact your local Corps District or Reclamation Region office for this information.
 - a. If making a request for a Continuing Authorities Program (CAP) project, please provide the specific Continuing Authorities Program section applicable to your project request (i.e. "204", "1135", etc.).
 - b. If making a request for an Environmental Infrastructure (EI) project, please provide the EI program authorization, including the Public Law and specific section number (i.e. Section 595 of Public Law 106-53).
 4. For a Corps of Engineers project, what is the correct appropriations account in which to request funding?
 5. For a Corps of Engineers project, is this project a new start?
 - a. The subcommittee may need to focus Fiscal Year 2026 resources on making progress on ongoing projects, in order to maximize federal benefits. If so, new starts may be very limited, if included at all. While new start requests will be accepted, Members should consider this limitation when making requests.
 6. For a Corps of Engineers project, is this project an environmental infrastructure (EI) project?
 - a. The subcommittee may need to focus Fiscal Year 2026 resources on projects in the main mission areas of the Corps (navigation, flood and storm damage reduction, environmental restoration), in order to maximize federal benefits. If so, EI projects

may be very limited, if included at all. While EI requests will be accepted, Members should consider this limitation when making requests.

7. If making a Corps request, please provide the name of the Corps District where the project is located. If making a Reclamation request, please provide the name of the Reclamation Region where the project is located.
8. For a Bureau of Reclamation project, is this project authorized only under section 4007, 4009(a), or 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act of 2016 (Public Law 114–322)?
 - a. If YES, the project is not eligible as a Community Project Funding request in the Energy and Water Development appropriations bill.

Average Project Award, Democrat: \$1,048,556

Average Project Award, Republican: \$2,387,600

Cap for Democrat Projects: \$1,145,144

There are two Federal Emergency Management Agency (FEMA) grant programs within the Subcommittee on Homeland Security's jurisdiction that are open to CPF requests: Pre-Disaster Mitigation (PDM) grants and Emergency Operations Center (EOC) grants. Please review the purpose and eligibility requirements, including any [environmental and historic preservation requirements](#), for these two grant programs to ensure proper consideration of the Member's request.

Over the past two fiscal years, FEMA found that many CPF requests lacked the necessary details to determine grant eligibility. Requestors are highly encouraged to upload detailed descriptions of each project submitted. For each project description, please include a detailed budget describing how the requested federal funding will be used and confirm the ability of the requesting entity to meet the cost-share requirement.

The PDM and EOC grant programs have cost-share requirements. Federal funding is available for up to 75 percent of the eligible activity costs. The remaining 25 percent of eligible activity costs must generally be derived from non-federal sources. The non-federal cost-share contribution is calculated based on the total cost of the proposed activity. For example, if the total cost is \$100,000 and the non-federal cost-share is 25 percent, then the non-federal contribution is \$25,000. For PDM grants, small, impoverished communities are eligible for up to a 90 percent federal cost-share for their mitigation planning and project sub-applications in accordance with the Stafford Act (42 U.S.C. § 5133(a),(h)(2)).

Department of Homeland Security

Pre-Disaster Mitigation Projects

In FY 26

Total Funding: \$105,100,659

Average Project Cost: \$1,751,678

Median Project Cost: \$1,145,144

Number of Requests: 60

All projects submitted must be for purposes authorized by section 203 of the Stafford Act (42 U.S.C. 5133), as amended by Section 1234, National Public Infrastructure Pre-Disaster Hazard Mitigation, of the Disaster Recovery Reform Act (DRRA) of 2018.

FEMA's PDM grants assist state, local, tribal, and territorial governments with planning and implementing sustainable, cost-effective measures to provide long-term, permanent risk reduction to individuals and property from future natural hazards, such as floods and wildfires, while reducing reliance on federal funding for future disasters.

For PDM grant requests, the database includes specific eligibility questions to ensure the proposed project meets FEMA's requirements as detailed in the most recent [Notice of Funding Opportunity \(NOFO\)](#). The subcommittee encourages offices to consult with their [State Hazard Mitigation Officers](#) when answering the questions in the database.

For any PDM projects designated for funding in the FY 2025 Homeland Security Appropriations Act, the respective State or Territorial Administrative Agency, or Tribal government, must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients). Each project request must be accompanied by a letter from the respective State or Territorial Administrative Agency, or Tribal government, in order to be considered for funding. CPF funding in the FY 2024 House bill ranged between \$75,000 and \$10,000,000 for individual PDM grants. Applicants must answer all eligibility questions for a request to be considered by the Committee.

Please pay careful attention to FEMA's eligibility requirements when answering the following questions:

1. Did you upload a letter from the appropriate State or Territorial Administrative Agency, or Tribal

government, confirming project eligibility and their willingness to administer the grant?

2. Did your office upload letters of support from local government entities demonstrating community support for the project(s)?

3. Is the proposed project eligible under the most recent Notice of Funding Opportunity (NOFO) for the PDM grant program?

4. Can the requesting jurisdiction provide the required non-federal cost share (25% of total eligible activity costs, or 10% for small, impoverished communities), as detailed in the NOFO?

5. If less than the requested amount is provided as the federal share, would additional state, local, or other eligible funding sources be available to support the project?

6. Can the requesting jurisdiction provide a Benefit-Cost Analysis (BCA) or other documentation that validates cost-effectiveness, which is defined by FEMA as having a BCA of 1.0 or greater? A non-FEMA BCA methodology may only be used if preapproved by FEMA in writing.

7. Consistent with the NOFO for PDM grants, is the proposed activity consistent with the goals and objectives in both the state or tribal hazard mitigation plan (44 CFR Part 201) and the local hazard mitigation plan of the jurisdiction in which the project is located?

8. If so, what is the FEMA approval date and when will the plan expire?

9. Has your office confirmed the funding request does not include unallowable activities for PDM grants (e.g., dredging waterways; the purchase of emergency vehicles and equipment)?

10. Describe how the proposed activity expands mitigation capacity rather than repair and maintenance of existing capacity.

11. How will the project provide long-term, permanent risk-reduction, as opposed to simply supporting Short-term, temporary emergency protective measures?

12. Can the recipient describe how the activity supports the needs of people disproportionately at risk of harmful impacts of natural disasters?

13. Does the recipient specifically encourage the adoption and enforcement of the latest disaster resistant building codes?

14. Provide a clear and detailed description of the proposed mitigation activity.

15. How will the mitigation activity be implemented?
16. Who will manage and complete the mitigation activity?
17. What risks will remain from natural hazards after project implementation (i.e., residual risk)?
18. How does the activity reduce the risk to individuals and property for future natural hazards, while reducing reliance on federal funding for future disasters?
19. Has the project been submitted, selected, or awarded funding in current or previous PreDisaster Mitigation (PDM), Building Resilient Infrastructure and Communities (BRIC), 7 Flood Mitigation Assistance (FMA), or Hazard Mitigation Grant Program fiscal year grant cycles?
20. If so, what is the subgrant ID, or which grant program and fiscal year was the application submitted, selected, or awarded funding?
21. Has your office or the community consulted with state, county, or local emergency management officials, or with FEMA about the proposed project?
22. If so, please provide the name of the official, the agency they represent, and their contact information.
23. Was this CPF funded in the FY 2026 House mark?

Emergency Operations Center Grant Program

In FY 26

Total Funding: \$64,899,341

Average Project Cost: \$1,248,064

Median Project Cost: \$1,034,487

Number of Requests: 52

All projects submitted must be for purposes authorized by section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5196c), as amended by section 202 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act).

FEMA's EOC grants improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, strategically located, and fully interoperable [EOCs](#) with a focus on addressing identified deficiencies and needs. According to the National Fire Protection Association,

an EOC is defined as a “facility or capability from which direction and control is exercised in an emergency. This type of center or capability is designated to ensure that the capacity exists for leadership to direct and control operations from a centralized facility or capability in the event of an emergency.”

Similar to CPF requests for PDM grants, the database includes specific eligibility questions for EOC grants to ensure the proposed project meets FEMA’s requirements as detailed in the most recent [NOFO](#). Applicants must answer all eligibility questions for a request to be considered by the Committee.

For any EOC projects designated for funding in the FY 2025 Homeland Security Appropriations Act, the respective State or Territorial Administrative Agency, or Tribal government, must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients). CPF funding in the FY 2024 House bill ranged between \$89,000 and \$3,000,000 for individual EOC grants. Each project request must be accompanied by a letter from the respective State or Territorial Administrative Agency, or Tribal government, in order to be considered for funding.

Please pay careful attention to FEMA’s eligibility requirements when answering the following questions:

1. Did you upload a letter from the appropriate State or Territorial Administrative Agency, or Tribal government, confirming project eligibility and their willingness to administer the grant?
2. Did you upload letters of support from local government entities demonstrating community support for the project(s)?
3. Is the proposed project eligible under the most recent Notice of Funding Opportunity (NOFO) for the Emergency Operations Center (EOC) Grant Program?
4. Is the requested federal funding amount limited to a maximum of 75% of the total project cost?
5. Can the requesting jurisdiction provide the required 25% non-federal cost share?
6. If less than the requested amount is provided as the federal share, would additional state, local, or other eligible funding sources be available to support the project?
7. Have reviewed the funding restrictions and allowable costs section of the NOFO for EOC grants?
8. Have you confirmed the funding request does not include unallowable activities for EOC grants (e.g., personnel costs; replacement radios for police, fire, and other response personnel; generators for emergency shelters; any equipment that is portable and does not directly support the functional and operational capabilities of an EOC)?

9. Is the proposed project related to a structure or facility that meets the definition of an EOC, to include supporting incident management (on-scene) operations across multiple functional disciplines and/or jurisdictions?
10. For EOC projects that involve construction or upgrading of multipurpose facilities, such as public safety facilities, police/fire stations, etc., EOC grants may only be used for those parts of the facility that are directly associated with the EOC. Does the requested federal funding amount reflect the proportionate facility construction cost, which is generally based on the square footage (floor space) of the EOC compared to the square footage of the entire facility?
11. Have you consulted with state, county, or local emergency management officials, or with FEMA about the proposed project?
12. If so, please provide the name of the official, the agency they represent, and their contact information.
13. Was this CPF funded in the FY 2026 House mark?

Interior and Environment Subcommittee

In FY 26

Total Funding: \$1,048,908,003

Average Project Cost: \$1,154,723

Median Project Cost: \$1,150,118

Number of Requests: 912

Average Project Award, Democrat: \$1,035,728

Average Project Award, Republican: \$1,259,120

Cap for Democrat Projects: \$1,092,000

Department of the Interior

For FY 2027, the Interior Subcommittee will only accept Community Project Funding (CPF) requests in the Environmental Protection Agency – State and Tribal Assistance Grants (STAG) account for certain clean water and drinking water infrastructure projects.

Projects must meet the eligibility criteria of the relevant Clean Water State Revolving Loan Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF) programs, including for the purposes authorized by federal law and all underlying federal requirements pursuant to Title VI of the Clean Water Act (CWSRF) and Section 1452 of the Safe Drinking Water Act (DWSRF).

There is a minimum 20% cost share requirement for any portion of a project funded through a STAG CPF and the subcommittee will not waive matching requirements.

Below are EPA brochures on eligibility guidelines for the CWSRF and DWSRF programs. The subcommittee recommends that offices share these brochures with requesting entities to better evaluate the eligibility of requested projects prior to submitting projects into the database.

- [EPA's Overview of Clean Water State Revolving Fund Eligibilities](#)
- [EPA's Drinking Water State Revolving Fund Eligibility Handbook](#)

Environmental Protection Agency

State and Tribal Assistance Grants (STAG)

Clean Water State Revolving Fund in FY 26

Total Funding: \$559,237,376
Average Project Cost: \$1,122,967
Median Project Cost: \$1,092,000
Number of Requests: 498

Drinking Water State Revolving Fund in FY 26

Total Funding: \$489,670,627
Average Project Cost: \$1,182,779
Median Project Cost: \$1,092,000
Number of Requests: 414

What types of entities are eligible to receive EPA CPF funding?

- Public entities should be considered the primary recipients to oversee the completion of a CPF project. State, municipal, local, territorial, or Tribal governmental entities are the most common recipients of CPF funding. For drinking water projects, the recipient must be a public water system.
- The subcommittee does not allow for-profit recipients and privately-owned projects, even if otherwise eligible under the CWSRF and DWSRF programs.
- Non-profits will be considered on a limited basis at the discretion of the Chairman, as non-profit partners with an inherent governmental function are occasionally used to complete water projects.

What types of projects are ineligible?

The subcommittee will not fund projects, or the portion of a project, for the direct benefit of resorts, golf courses, athletic fields, park amenities, gardens, or similar projects.

Are flood control projects eligible?

Projects solely for flood control, including construction or rehabilitation of dams, are not eligible. It is possible for an eligible project to have a flood control benefit, but the project must achieve a water quality benefit, which must be specified in the Member office submission. For example, a stormwater pump to direct water to a stormwater treatment plant is eligible, but a stormwater pump to move water to another location without treatment is not eligible.

Are irrigation projects eligible?

Projects for the sole purpose of irrigation are only eligible if the project uses reclaimed water from wastewater, stormwater, or subsurface drainage water.

Are fire suppression projects eligible?

Projects for the sole purpose of fire protection or suppression are not eligible. It is possible for an eligible project to have a fire suppression benefit, as water systems are typically designed to accommodate fire flow demands, but the primary purpose of the project must be for the provision of safe drinking water.

Can a CPF project include road repairs?

The cost of road repairs is eligible in limited circumstances to the extent that such repairs are required to undertake the CPF water quality improvement project. Road construction for transportation improvements or flood mitigation (such as redirecting drainage or channeling flows) is not eligible.

What about projects for the purpose of attracting future economic growth?

Drinking water infrastructure projects must serve the public health needs of the existing population. A project may be sized for a reasonable amount of population growth over the useful life of the project. However, a drinking water project may not be for the purpose of anticipating or attracting future growth or development. Clean water infrastructure projects do not have this restriction.

Is ongoing operation and maintenance an eligible expense for a CPF?

No, ongoing operations and maintenance is not an eligible CPF expense and should not be included in the requested project amount.

Can a CPF be used to reimburse an entity that has already incurred project costs?

Yes, but the costs 1.) Must be for an otherwise eligible clean or drinking water project 2.) Must be in conformance with applicable federal and EPA statutes and regulations (ex: Build America Buy America Act, Davis Bacon Act, environmental reviews) and 3.) Are only eligible for FY 2026 CPF funding if the costs are incurred on or after October 1, 2025. All costs incurred are at the risk of the entity and EPA will review each reimbursement CPF project on a case-by-case basis to determine whether the incurred project costs are CPF eligible.

Does a project have to be on a state IUP list in order to be eligible for a CPF?

A project is not required to be on a State Intended Use Plan (IUP), but projects already listed on an IUP are usually eligible to receive CPF funding and can be an easy positive identifier of eligibility. Projects that are already on an IUP are typically aware of the applicable SRF requirements.

Each project request must only be for FY 2026 funds and only include an amount that the recipient can reasonably obligate within one year (one year from the date the recipient receives the funds, not one year from the enactment of a final bill). Requests cannot include multi-year funding. The same project can receive funding across multiple years in a phased approach but must be requested again in the subsequent year(s).

There is a minimum 20% cost share requirement for any portion of a project funded through a STAG CPF. For example, if the total amount of a project is \$1 million, the entity could receive a maximum of \$800,000 from the federal government, with the remaining \$200,000 the responsibility of the entity. In this case, the submission for this project should be \$800,000. Other federal funds generally cannot be used to meet the 20% costshare requirement, with some exceptions (for reference, the exceptions for FY 2026 CPFs included federal funds from the following programs: HUD Community Development Block Grant Program, USDA Rural Development Program, Appalachian Regional Commission grants, and Delta Regional Authority grants). Additionally, non-federal assistance provided by a SRF can be used as part of the project's matching requirement

In FY 2026, most EPA STAG infrastructure projects funded in the House bill ranged from \$1,000,000. Note that the Committee may consider higher project amounts for fiscal year 2027, and any caps will be determined by the Chairman after reviewing the full universe of requests.

Projects that generally **ARE NOT** eligible for STAG Grants include:

Clean Water/Wastewater

1. Land: except for projects described in the subsequent table under eligibility #11
2. Operations and Maintenance Costs.
3. Non-Municipal point source Control.
4. Acid Rain Drainage Correction.
5. Ambient Water quality monitoring.
6. Flood Control Projects, unless the project is otherwise managing, reducing, treating, or recapturing stormwater.
7. Privately Owned Sewer Pipes.

Drinking Water

1. Dams or rehabilitation of dams.
2. Operations and Maintenance Costs.
3. Water Rights, except if the water rights are owned by a system that is being purchased through consolidation as part of a capacity development strategy or if the water rights purchase is covered by EPA's DWSRF Class Deviation for Water Rights 2019.
4. Reservoirs, except for finished water reservoirs and those reservoirs that are part of the treatment process and are located on the property where the treatment facility is located.
5. Laboratory Fees for Monitoring.
6. Projects needed mainly for fire protection.
7. Projects for systems that lack adequate technical, managerial, and financial capability, unless assistance will ensure compliance.
8. Projects for systems in significant noncompliance, unless funding will ensure compliance.
9. Projects primarily intended to serve future growth.

Projects that generally **ARE** eligible for STAG Grants:

Clean Water/Wastewater

1. Wastewater treatment plants, including sludge handling facilities - new, upgraded (increase in treatment level) or expanded (increase in treatment capacity) facilities,

including biological facilities, mechanical, a lagoon system, a land treatment system, or individual on-site systems.

2. Collector Sewers - Small sewers that convey wastewater from residences, commercial establishments, and industrial sites to larger interceptor sewers.
3. Interceptor Sewers - Large sewers that convey wastewater from collector sewers directly to a wastewater treatment facility.
4. Sewer Pipes - Rehabilitation is eligible only if pipes are publicly owned.
5. Outfall Sewer - A sewer that conveys treated wastewater from a wastewater treatment facility to the receiving waters (i.e., a river, stream, lake, ocean, etc.).
6. Stormwater Management - Measures to manage, reduce, treat, or recapture stormwater or subsurface drainage water (i.e. storm sewers, green infrastructure, etc.).
7. Combined sewer overflow (CSO) control and sanitary sewer overflow (SSO) control - Combined sewers are sewers that convey both wastewater and storm water and may overflow during periods of heavy rain. The costs to correct CSO and SSO overflow problems are eligible.
8. Infiltration/Inflow Correction - Construction activities that prevent surface water or groundwater from entering the sewer system.
9. Water Security - These projects include installation or upgrade of physical security infrastructure such as lighting, fencing, monitoring and access control. Also, cybersecurity measures, installation of safer treatment technologies, and more secure storage of on-site treatment.
10. Septic Tanks - Remediation, rehabilitation, removal and replacement of failing tanks are eligible, as well as installation of new tanks where none had previously existed.
11. Land - The leasing and fee-simple purchase of land, including surface and subsurface easements, needed to locate eligible municipal or tribal projects, and land integral to the treatment process (e.g., land for effluent application or recharge basins), and a place to store equipment and material during POTW construction. Municipal purchase of land and/or conservation easements for source water protection are also eligible.
12. Water Reuse - Projects involving the municipal reuse or recycling of wastewater, stormwater, or subsurface drainage water. This includes but is not limited to the purchase and installation of treatment equipment sufficient to meet reuse standards, distribution systems to support effluent reuse, recharge transmission lines, injection wells, and equipment to reuse effluent (e.g., gray water, condensate, and wastewater effluent reuse systems).
13. Capital Nonpoint Source Pollution Control Projects – e.g., river or streambank

restoration, agricultural best management practices (i.e., buffer strips, manure containment structures), wetlands restoration, etc.

Drinking Water

1. Facilitate compliance with national primary drinking water regulations or address serious risks to public health including non-regulated contaminants (i.e. PFAS).
2. Rehabilitate or develop water sources (excluding reservoirs, dams, dam rehabilitation and water rights) to replace contaminated sources.
3. Install or upgrade treatment facilities.
4. Install or upgrade storage facilities, including finished water reservoirs, to prevent microbiological contaminants from entering the water system.
5. Install or replace transmission and distribution pipes to prevent contamination caused by leaks or breaks in the pipe, or improve water pressure to safe levels.
6. Projects to consolidate water supplies – for example, when individual homes or other public water supplies have a water supply that is contaminated, or the system is unable to maintain compliance for financial or managerial reasons – are eligible for DWSRF assistance.
7. Land is eligible only if it is integral to a project that is needed to meet or maintain compliance and further public health protection.
8. Project planning, design and other related costs.

Supplemental Questions:

1. Is this a Clean Water SRF project or a Drinking Water SRF project?
2. Is the project on your State's most recently finalized Clean Water/Drinking Water SRF Intended Use Plan (IUP)?
3. Does the project have (or expects to have within 12 months) its 20 percent matching fund requirement?
4. Has the project received Federal funds previously? If so, please describe.
5. Does the project help meet or maintain Clean Water Act/Safe Drinking Water Act standards? If so, please describe.

Labor, Health and Human Services, Education, and Related Agencies

Department of Health and Human Services

Health Resources and Services Administration

CPF requests for the cost of limited-scope construction, renovation, or capital equipment purchase for facilities for health, mental health, or substance use disorder services, training of health professionals, or medical research. In addition to construction and renovation, CPF funding can be used to acquire capital equipment, such as lab equipment, x-ray machines, or telehealth and information technology.

Equipment-only CPF requests not involving construction are permissible. Generally, any equipment having a useful life of more than one year and a unit cost of at least \$5,000 will be eligible as capital equipment. In addition, equipment with lower costs may also be eligible, if it is treated as an item of capital expense under the recipient institution's pre-existing, written accounting policies. Equipment expenses for health information systems and electronic medical records systems are permitted expenditures, software licenses or operating fees are not eligible. The costs of expendable supplies such as pharmaceuticals, lab chemicals, or office paper are not eligible.

HRSA Health Facilities funding cannot be used to acquire land or purchase existing buildings, or to pay salaries or other operating costs. Funding cannot be used to pay for work previously completed. CPF requests can be used for architectural and engineering costs associated with an eligible construction project but cannot be used for general feasibility studies.

For more information on construction and equipment requests, see:

<https://www.hrsa.gov/grants/manage-your-grant/training/community-project-funding-congressional-directed>

CPF requests must include a basic budget that clearly describes how the funds will be used for specific purposes to achieve the project's goals. HRSA CPF recipients may not sub-grant to other organizations or agencies.

Eligible recipients for Health Facilities Construction and Equipment community project funding include:

- State, Local, and Tribal Governments

- Non-profit entities that are: (1) certified rural health clinics, (2) Federally Qualified Health Centers, (3) designated Critical Access Hospitals; or (4) hospitals located in areas that meet HRSA's definition of rural: <https://www.hrsa.gov/rural-health/about-us/definition/index.html>.

A General Provision prohibits the award of funding for projects to expend funds for any abortion. The following entities are **not eligible** for LHHS community project funding:

- Entities that perform or promote abortions, including providing referrals, counseling, lobbying, and training related to abortions; furnish or develop any item intended to procure abortions; or provide financial support for such entities. The exceptions described in section 507(a) of division B of the Consolidated Appropriations Act, 2026 (P.L. 119–75) shall apply.
- Entities that conduct research using embryonic stem cells (if such tissue is obtained pursuant to an induced abortion) or human germline gene modification.
- Entities that facilitate, promote access to, or refer for psychological, behavioral, or medical interventions performed for the purposes of intentionally changing the body of an individual (including by disrupting the body's development, inhibiting its natural functions, or modifying its appearance) to no longer correspond to the individual's biological sex.

For each CPF request, Members will be asked to respond to a series of questions intended to provide transparency and ensure the project is a valuable use of taxpayer funds. **Below are specific eligibility questions in the database that must be answered for the LHHS bill:**

1. Do you affirm that the intended recipient of community project funding is an eligible recipient under LHHS CPF guidelines?
2. Why is the project a priority for the district? Briefly explain the community benefits.
3. Has the project received federal funding before and, if so, how much, when and from which agencies and program(s)?
4. What is the Employer Identification Number (EIN) for the recipient organization?
5. Please provide a budget breakdown of this project – maximum of 10 budget categories (i.e., do not upload a spreadsheet with dozens of budget items).
6. Please provide the website of the entity to receive funding for this project.

7. If the request does not fully fund the project, describe the source(s) of funding necessary to complete the project.
8. Please indicate if you are aware of another Member making a request for this same project.

All CPF requests must meet applicable eligibility requirements. Any CPFs that are funded in an appropriations bill will need to apply to HHS for the award. The application will be reviewed for compliance prior to official award.

If the CPF recipient's construction project is expected to begin imminently, please note that CPF construction projects must adhere to National Environmental Policy Act (NEPA) / National Historic Preservation Act (NHPA) requirements prior to initiating any physical preparation, demolition, alteration and renovation, or construction related to the project.

CPF recipients should be sure they are accounting for time for application submission and review, award issuance, and resolution of conditions on the award, including NEPA/NHPA requirements, prior to starting the project.

CPF requests should not be viewed as continuous funding sources and should be distinct from competitive grant opportunities.

All projects must be for purposes authorized under the Public Health Service Act.

Military Construction, Veterans Affairs Subcommittee

In FY 26

Total Funding: \$450,000,000

Average Project Cost: \$23,684,211

Median Project Cost: \$17,000,000

Number of Requests: 19

All Projects must be for purposes authorized by 10 U.S.C. Chapter 169 and the FY22 National Defense Authorization Act.

*NOTE: Most of these requests ***MUST*** be included in the President's FY27 Budget to be requested as a CPF

The following types of projects are eligible to be considered for community project funding, provided that they comply with the specified guidelines listed below. The subcommittee will not consider requests for community projects unless they appear on a list provided to Congress by the Secretary of Defense or his/her designee. More detail regarding such lists can be found below.

Department of Defense - Military Construction Accounts

Community Project Funding requests must follow the guidelines included in this section. Each project request must be for fiscal year (FY) 2027 funds only and cannot be for multi year funding. In addition, requested projects must meet the following criteria:

- All requests, including for design and minor construction, must be included on an unfunded requirements/unfunded priorities list (UFR/UPL) submitted to Congress by a military service, combatant command, or the Office of the Under Secretary for Research and Engineering, or have an existing active authorization from a prior National Defense Authorization Act (NDAA).
 - Projects suggested by an installation or unit commander will not be accepted.
- Projects suggested by an installation or unit commander will not be accepted.
 - For projects that have not reached 35 percent design, planning and design funding can be requested.
- Able to be obligated in FY27.
- Submitted to the House Armed Services Committee (HASC) for inclusion in the FY27 National Defense Authorization Act or previously authorized.
- Have a DD Form 1391, which is DoD's justification for military construction projects.

- The Committee will note given anticipated demand and already oversubscription for Community Project Funding we encourage offices to submit, and the subcommittee intends to prioritize Community Project Funding requests below \$55,000,000. Requests above that threshold will be difficult to fund as there are several variables affecting the Committee's ability to fund large projects. The Committee also intends to prioritize funding for requests that fully fund the total cost of a project and intends to avoid new incremental funding for projects above \$55 million.

Construction and Unspecified Minor Construction– Active Components

Eligible Community Project Funding requests include both construction and unspecified minor military construction projects for active components in the accounts listed below. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$9,000,000. The types of projects under this heading include construction, installation, equipment of temporary or permanent public works, military installations, and facilities for the accounts listed below:

- Army
- Navy and Marine Corps
- Air Force
- Space Force
- Defense-Wide Agencies (SOCOM, DLA, etc.)

Construction and Unspecified Minor Construction– Reserve Components

Eligible Community Project Funding requests include both construction and unspecified minor military construction projects for Reserve Components in the accounts listed below. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$9,000,000. Note: Some Reserve Component projects require a State funding match. Requesting offices must determine whether the proposed project requires such a match and if so, confirm that the project has current State matching funds. The Committee will not waive match requirements. Army National Guard

- Air National Guard
- Army Reserve
- Air Force Reserve
- Navy Reserve

Unfunded Requirements/Unfunded Priorities Lists (UFRs/UPLs)

UFRs/UPLs are lists that the Services and Combatant Commanders provide to Congress identifying priority projects that were not included in the President's budget request. UFRs/UPLs are available to Congress within ten days of the release of the President's budget and can be found by contacting the Armed Services' Congressional Liaison Offices.

For military construction Community Project Funding requests, the following information will be needed. This information is specific to the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies.

- Which Service is the project for?
- Project Title.
- Amount Requested for FY27.
- Program (Is the funding request for construction, unspecified minor construction, or planning and design?).
- Project Location (State/Territory Title).
- Installation Name (Location Title).
- Does the project have an active authorization from the National Defense Authorization Act? If so, what year?
- Was the project included as an unfunded requirement in the Unfunded Requirements for Laboratory Military Construction Projects report Congress required by section 2806 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91)?
- Is the project on a FY27 Service or Combatant Command unfunded requirements/unfunded priorities list (UFRs/UPLs)?
- Does the project have a DD Form 1391?
 - Have you included it in the submission?
- If a Reserve Component project, does it require a State funding match?
- Is this project at or above 35% design complete?
- Can the project funds be obligated in FY27?
- Has a corresponding request been submitted to HASC for inclusion in the FY27 NDAA?. If a project was previously authorized in a NDAA, please provide the fiscal year.
- Who is the point of contact in the requesting office?

Air Force in FY 26

Total Funding: \$32,400,000

Number of Requests: 2

Air Force Reserve in FY 26

Total Funding: \$3,200,000

Number of Requests: 1

Army in FY 26

Total Funding: \$77,300,000

Average Project Cost: \$25,766,667

Median Project Cost: \$18,000,000

Number of Requests: 3

Army Reserve in FY 26

Total Funding: \$50,000,000

Number of Requests: 1

Navy and Marine Corps in FY 26

Total Funding: \$155,100,000

Average Project Cost: \$19,387,500

Median Project Cost: \$13,500,000

Number of Requests: 8

Navy Reserve in FY 26

Total Funding: \$50,00,000

Number of Requests: 1

Defense Wide in FY 26

Total Funding: \$82,000,000

Average Project Cost: \$27,333,333

Median Project Cost: \$32,000,000

Number of Requests: 3

Transportation, Housing and Urban Development
Subcommittee

In FY 26

Total Funding: \$3,727,541,001

Average Project Cost: \$1,573,466

Median Project Cost: \$1,000,000

Number of Requests: 2369

Average Project Award, Democrat: \$971,000

Average Project Award, Republican: \$2,998,332

Cap for Democrat Projects: \$3,150,000

Department of Transportation

Transit Infrastructure Projects

In FY 26

Total Funding: \$95,766,390

Average Project Cost: \$1,008,067

Median Project Cost: \$850,000

Number of Requests: 95

All Projects must be for purposes authorized by chapter 53 of title 49 of the United States Code.

Transit Infrastructure Projects are public transportation capital projects eligible under chapter 53 of title 49 of the United States Code. Eligible capital projects are described under Section 5302(4) of title 49, United States Code, and Section 5339(b)(1) and (c)(1)(B) of title 49, United States Code.

All projects must be:

- Transit capital projects or project-specific planning/design for a transit capital project.
- Supported by the state, local governmental authority, or Tribal government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
- Administered by public entities or Tribal entities.

Public transportation or transit is defined in Section 5302(15) and (22) of title 49, United States Code, as regular, continuing shared-ride surface transportation that is open to the general public or open to a segment of the general public defined by age, disability, or low income, and does not include intercity passenger rail transportation, intercity bus service, charter bus service, school bus service, sightseeing service, courtesy shuttle service for patrons of one or more specific establishments, or intra-terminal or intra-facility shuttle services.

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities authorized under sections 5303, 5304, and 5305 of title 49, United States Code. Additionally, most projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The Committee strongly encourages Members' offices to reach out to the project sponsor (i.e., transit agency) to determine the eligibility and viability of their projects.

The Subcommittee will continue to treat the Capital Investment Grants (CIG) program as programmatic requests and will not fund CIG projects under Transit Infrastructure Projects. Any projects for which the sponsor is seeking or will seek a CIG grant will not be considered.

For each Transit Infrastructure Projects request, Members will need to provide specific information through the electronic database. The database will include the following questions to assist the Subcommittee in vetting and selecting projects. Several of them will require additional information from your office. Please ensure community project funding requests are not duplicative of requests to another Committee or Subcommittee.

Supplemental Questions:

1. Project Name.
2. Project Recipient.
3. General description and scope of project, including benefits and explanation for why project a priority?
4. Total project cost. Provide the total estimated cost of the project. If outlined in the STIP or TIP, provide that amount unless estimated project costs have increased. If project costs have increased, provide a justification.
5. Has the project completed the required review(s) under the National Environmental Protection Act (NEPA)? If yes, what is the status and/or outcome of the NEPA review? Projects must complete NEPA before beginning construction/procurement to receive federal funding, including CPFs.
6. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for capital projects? The cost-share requirements are defined in statute. In general, transit capital projects typically require 20 percent non-federal share.
7. If the project receives less than requested for the transit infrastructure projects, are there additional sources of Federal or non-Federal funding available to deliver the full scope presented in the submitted application? If not, and the full scope cannot be completed with that reduced award, please describe the revised version of the project with a reduced scope, including revised costs.
8. Does the project intend to apply for any DOT discretionary programs before proceeding? If yes, will the project sponsor still proceed if not selected?
9. Provide a history of federal funding for the project, if any. Include formula funds and any discretionary grants.
10. Where is the project in the construction process? Drop down options in the database will include: Planning and Environmental Review, Final Design, RFP/IFB Issued, Contract Awarded, Capital Purchase or Lease, Construction, and Other (please specify).

11. Estimated start and completion dates.
12. Is the project currently on a state, tribal or territorial transportation improvement plan (STIP) or a transportation improvement plan (TIP) as of 12/31/2024? If yes, provide a link to the plan.
13. Provide the STIP or TIP ID Number and specify which plan the ID Number comes from.

Highway Infrastructure Projects

In FY 26

Total Funding: \$955,933,091

Average Project Cost: \$2,060,201

Median Project Cost: \$1,000,000

Number of Requests: 464

All Projects must be for purposes authorized by 23 USC 133, or 23 USC 201 or, 23 USC 202, or 23 USC 165

Highway Infrastructure Projects are capital projects eligible under title 23 of the United States Code. Eligible projects are described under Section 133(b) of title 23, United States Code, as amended by title III of division A of the Infrastructure Investment and Jobs Act. Tribal and territorial capital projects authorized under Chapter 2 of title 23, United States Code, are also eligible.

All projects must be:

- Capital projects or project-specific planning/design for a capital project.
- Supported by the state or Tribal government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
- Administered by public entities or Tribal entities.

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities required under sections 134 and 135 of title 23, United States Code.

Applicants should be aware that Highway Infrastructure Projects have a non-Federal cost share calculated on a sliding scale. The [cost-share requirements](#) are defined in statute and vary based on activity, location, and other factors.

Additionally, most projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The Committee strongly

encourages Members' offices and potential funding recipients to reach out to their state departments of transportation to determine the eligibility and viability of projects.

Supplemental Questions:

1. Project Name. A short name by which the project may be identified, including a very brief description of what the funds will be used for and the project's location (city, county, State, Tribe, Congressional District).
2. General description and benefits of the project and why it is needed.
3. Type of project eligible under 23 USC 133(b) (Surface Transportation Block Grant Program); 23 USC 201 (Federal Lands and Tribal Transportation Programs); 23 USC 202 (Tribal Transportation Program); or 23 USC 165 (Territorial and Puerto Rico Highway Program).
4. If the request is for a phase of a larger project, describe all other phases and how this request relates to the entire project.
5. Please provide a history of any federal funding already received or approved for the project. Include both formula funds and any discretionary grants.
 - a. EXAMPLE: FY20 TIGER/BUILD Grant: \$10 million; FHWA Formula Funds: \$5 million.
6. Does the project have other public (state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction, operations, and maintenance? If so, what is the source and amount of those funds?
7. Is the project on a STIP or a TIP? If yes, please provide a link to the plan.

Airport Improvement Program (AIP)

In FY 26

Total Funding: \$282,238,000

Average Project Cost: \$3,207,250

Median Project Cost: \$2,000,000

Number of Requests: 88

All Projects must be for purposes authorized by 49 U.S.C. 47100 et seq.

AIP community project requests may be used for enhancing airport safety, capacity, and security, and mitigating environmental concerns.

All projects must be:

- AIP eligible in accordance with 49 U.S.C. 47100 et seq., and FAA policy and guidance.

- Included in the FAA's National Plan of Integrated Airport Systems (NPIAS).
- Supported broadly by local stakeholders, including residents, businesses, and elected officials.
- Administered by an airport and/or airport sponsor.

Projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act. The potential grantee should reach out to FAA Regional District Offices to ensure that projects will be in compliance with these mandates.

For large and medium primary hub airports, the grant covers 75 percent of eligible costs (or 80 percent for noise program implementation). For small primary, reliever, and general aviation airports, the grant covers a range of 90-95 percent of eligible costs, based on statutory requirements. Specific cost share requirements should be understood by the grantee, and verified by the FAA Regional District Office, along with other requirements to receive FAA funding.

Supplemental Questions:

1. Project Name and Airport Recipient (including three letter or number code).
2. General project description and why it's needed.
3. What are the benefits of this project and why is it a priority?
4. What is the total project cost, and what is the requested amount for Community Project Funding?
5. Has the airport sponsor provided assurances that the project is eligible under AIP statutes? Airport sponsors should engage with their Federal Aviation Administration Airport District Offices to ensure eligibility under statutory requirements
6. Has the airport submitted a grant application for this same project to FAA? If so, when?

Additional Questions

7. Does the project have other public (federal, state, local) and/or private funds for the required cost-share and committed for the forecasted operations and maintenance costs? What is the source and amount of those funds?
8. Can the project obligate all appropriated funds within 12 months after enactment? If not, what would be the expected date of obligation?
 - a. Obligation occurs when a project sponsor signs a grant agreement with a federal agency.
9. How will the project contribute to the airport's [disadvantaged business enterprise](#) goals?
10. Is the project [AIP-eligible](#)?
11. Would the project increase or decrease air traffic?
12. Would the project increase or decrease aviation safety?
13. Would the project increase or decrease environmental risks?

14. Does the airport and airport sponsor support the project?
15. Are there any stakeholders - such as residents that live near the airport, state or local officials, state department of transportation officials - that oppose the project?

Port Infrastructure Development Program

In FY 26

Total Funding: \$43,470,000

Average Project Cost: \$2,287,895

Median Project Cost: \$1,920,000

Number of Requests: 19

All projects must be for purposes authorized by 46 USC 54301.

Port Infrastructure Development Program projects are projects eligible under [Section 54301 of title 46](#), United States Code, as amended by title XXXV of division C of the National Defense Authorization Act for Fiscal Year 2022.

The subcommittee will only fund projects that meet eligibility criteria and will be administered by eligible applicants, as described by statute. As a reminder, for-profit recipients are not eligible.

This program has a statutory non-federal matching requirement, with potential exceptions for small and rural area ports. Applicants should review 46 USC sections 54301(a)(8) and 54301(b) for more information on these cost-share requirements before submitting requests for funding. Note that recipients are also required to comply with reviews and audits from the Department of Transportation.

Additionally, these projects must comply with federal requirements such as Buy America and the National Environmental Policy Act. The Committee strongly encourages Member offices and potential funding recipients to reach out to their local port authorities to help determine the eligibility and viability of projects.

For each Port Infrastructure Development Program project request, Members will need to provide specific information through the electronic submission process. The database will include the questions below to assist the subcommittee in vetting and selecting projects.

Supplemental Questions:

1. What is the project name?
2. What are the benefits of this project and why is it a priority?
3. Is the project at a small port, as described under 46 USC 54301(b)?

4. Is the project in a rural area, as described under 46 USC 54301(a)(12) – an area that is outside of a census-designated urbanized area?
5. If the request is for a phase of a larger project, describe all other phases and how this request relates to the entire project.
6. Has the recipient engaged in discussions with the local port authority and received assurances that the project is eligible under applicable statutes?
7. Provide a history of any federal funding already received or approved for the project.
8. Does the project have other public (state, local) and/or private funds committed to meet match or cost-share requirements? If so, what is the source and amount of those funds?

Consolidated Rail Infrastructure and Safety Improvements (CRISI)

In FY 26

Total Funding: \$38,402,000

Average Project Cost: \$1,536,080

Median Project Cost: \$1,000,000

Number of Requests: 25

All projects must be for purposes authorized by section 22907 of title 49 of the United States Code.

Rail infrastructure projects are capital projects eligible under the CRISI program authorized in section 22907 of title 49, United States Code. CRISI provides grants to assist in financing the cost of improving passenger and freight rail transportation systems. All projects must be:

1. Rail capital projects or systems planning for a rail capital project;
2. Supported by the state, local governmental authority, or Tribal government that would administer the project; and
3. Sponsored by public entities or Tribal entities

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include but are not limited to general operating expenses, rail-related research, and workforce activities.

The Committee strongly encourages Members' offices to reach out to the project sponsor (i.e., public agency) to determine the eligibility and viability of their projects. Projects will be subject to various Federal requirements such as competition in contracting, Buy America, and the National Environmental Policy Act.

Supplemental Questions:

1. Project Name.

A short name by which the project may be identified, including a very brief description of what the funds will be used for and the project's location. This description may be used in the House report and must be accurate to ensure funds are provided to the correct project and location.

2. Project Recipient.

As a reminder, for-profit entities are not eligible for CPF funding. The recipient must be a public entity that is eligible under the CRISI Program such as a state department of transportation, political subdivision of a state, public agency or publicly chartered authority established by one or more states, or not-for-profit rail carrier that provides intercity rail passenger transportation.

3. Please select the eligible project type that best describes the project:

Please note that CRISI projects are required to primarily benefit intercity passenger rail or freight rail service.

- a) Deployment of railroad safety technology, including positive train control and rail integrity inspection systems.
- b) A capital project as defined in section 22901(2), except that a project shall not be required to be in a State rail plan developed under chapter 227.
- c) A capital project necessary to address congestion or safety challenges affecting rail service.
- d) A capital project necessary to reduce congestion and facilitate ridership growth in intercity passenger rail transportation along heavily traveled rail corridors.
- e) A highway-rail grade crossing improvement project, including installation, repair, or improvement of grade separations, railroad crossing signals, gates, and related technologies, highway traffic signalization, highway lighting and crossing approach signage, roadway improvements such as medians or other barriers, railroad crossing panels and surfaces, and safety engineering improvements to reduce risk in quiet zones or potential quiet zones.
- f) A rail line relocation or improvement project.
- g) A capital project to improve short-line or regional railroad infrastructure.
- h) The preparation of regional rail and corridor service development plans and corresponding environmental analyses.
- i) Any project necessary to enhance multimodal connections or facilitate service integration between rail service and other modes, including between intercity rail passenger transportation and intercity bus service or commercial air service.
- j) The development and implementation of measures to prevent trespassing and reduce associated injuries and fatalities (e.g., trespass-related Capital Projects such as physical barriers, fencing, or equipment; trespassing enforcement activities; and outreach campaigns resulting in trespasser deterrence and prevention).

- k) Rehabilitating, remanufacturing, procuring, or overhauling locomotives, provided that such activities result in a significant reduction of emissions.
4. General description and scope of project, including benefits and explanation for why project is a priority. If the CPF is requested to cover only one phase or segment of a larger project, be clear about how the CPF funds will be used.
 5. Total project cost. Provide the total estimated cost of the project. The estimated total cost must be based on the best available information, including engineering studies, studies of economic feasibility, and environmental analyses. See FRA's cost estimate guidance. Please note the amount requested should not exceed 80 percent of the total project costs. Rail capital projects under the CRISI program require a minimum 20 percent non-federal share.
 6. Does the project have non-federal and/or private funds committed to meet match or cost-share requirements? What is the source and amount of those Funds? The minimum 20 percent non-Federal share may consist of public sector funding (e.g., State or local) or private sector funding. FRA will not consider any Federal financial assistance or any non-Federal funds already expended (or otherwise encumbered) toward the matching requirement, unless compliant with 2 CFR part 200.
 7. If the project receives less than requested, will the project still proceed without waiting for additional funding sources?
 8. Provide a history of federal funding for the project, if any. Include prior CRISI or other DOT grant program applications, formula funds and any awarded discretionary grants.
 9. Where is the project in the construction process? Drop down options in the database will include: Systems Planning, Project Planning, Project Development, Final Design, or Construction. Please note that funding for Operations is not eligible.
 10. Estimated start and completion dates. Project sponsors may view the FRA recorded webinar "From Selection to Award—The PostSelection Process for FRA Grants" for a better understanding of the requirements for funding to be obligated.
 11. Is the project on a state rail plan as of 12/31/2026? If yes, provide a link to the plan and specify page number.
 12. Is the project included in a grade crossing action plan or other planning document? If yes, provide a link to the plan and specify page number.

Department of Housing and Urban Development

Community Development Fund (CDBG) (Economic Development Initiative (EDI))

In FY 26

Total Funding: \$2,311,731,520

Average Project Cost: \$1,377,671

Median Project Cost: \$850,000

Number of Requests: 1678

EDI Community Project Funding within the Community Development Fund account of the HUD title is intended for economic and community development activities, consistent with statutory and additional Committee requirements.

Please note: In a change from FY24, the only eligible recipients for Community Project Funding in the Economic Development Initiatives account are the following types of governmental entities and public institutions of higher education:

- States and the District of Columbia
- Territories
- Tribal governments
- Counties
- Cities, towns, parishes, or other local government entities
- Public colleges and universities, including community colleges
- Public colleges and universities, including community colleges, all Historically Black Colleges and Universities defined as a “part B institution” in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061), and all Tribal Colleges and Universities as defined in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c)

Project requests for the FY25 Economic Development Initiative program must be eligible under one or more of the following criteria of the Community Development Block Grant (CDBG) program: 42 U.S.C. 5305(a)(1), 5305(a)(2), 5305(a)(4), 5305(a)(5); which are as follows—but limited to—land or site acquisition, demolition or rehabilitation; blight removal; and construction and capital improvements of public facilities, except for “buildings used for the general conduct of government.” (42 U.S.C. 5302(a)(21) provides: “The term ‘buildings for the general conduct of government’ means city halls, county administrative buildings, State capitol or office buildings, or other facilities in which the legislative or general administrative affairs of the government are conducted. Such term does not include such facilities as neighborhood service centers or special purpose buildings located in low- and

moderate-income areas that house various non-legislative functions or services provided by government at decentralized locations.”)

Programmatic and operational expenses are not eligible

5305(a)(1) – the acquisition of real property (including air rights, water rights, and other interests therein) which is (A) blighted, deteriorated, deteriorating, undeveloped, or inappropriately developed from the standpoint of sound community development and growth; (B) appropriate for rehabilitation or conservation activities; (C) appropriate for the preservation or restoration of historic sites, the beautification of urban land, the conservation of open spaces, natural resources, and scenic areas, the provision of recreational opportunities, or the guidance of urban development; (D) to be used for the provision of public works, facilities, and improvements eligible for assistance under this chapter; or (E) to be used for other public purposes;

5305(a)(2) – the acquisition, construction, reconstruction, or installation (including design features and improvements with respect to such construction, reconstruction, or installation that promote energy efficiency) of public works, facilities (except for buildings for the general conduct of government), and site or other improvements;

5305(a)(4) – clearance, demolition, removal, reconstruction, and rehabilitation (including rehabilitation which promotes energy efficiency) of buildings and improvements (including interim assistance, and financing public or private acquisition for reconstruction or rehabilitation, and reconstruction or rehabilitation, of privately owned properties, and including the renovation of closed school buildings);

5305(a)(5) – special projects directed to the removal of material and architectural barriers which restrict the mobility and accessibility of elderly and handicapped persons;

Given that projects must meet these authorized purposes of the CDBG program, the Committee expects to fund the following types of projects and other similar projects:

- Water or sewer infrastructure projects, which are not otherwise eligible to be funded as CPFs in EPA STAG (Interior bill) or Rural Water and Waste (Agriculture bill);
- Local road infrastructure, which is not otherwise eligible as a CPF in Highways (in this bill);
- Streetscape improvements;
- Public or non-profit housing rehabilitation, housing development financing, residential conversions, and neighborhood revitalization projects, which would increase housing supply and/or improve housing affordability in the local community;
- Projects with a clear economic development benefit, such as workforce training centers and manufacturing incubators;

- Projects that meet a compelling local need consistent with the statutory purposes. For example, food banks in economically disadvantaged neighborhoods, youth and senior centers, and multipurpose community centers.

All projects will be evaluated based on the individual submissions, and projects will be selected based on the merits of the project relative to other projects and the availability of CPF funding.

So that Members have the clearest possible guidance on the front end, the following types of projects are not eligible for CPF funding:

- Museums, commemoratives, memorials;
- Swimming pools, water parks, golf courses;
- Healthcare facilities;
- Strictly research, operational, or planning activities; and
- Venues strictly for entertainment purposes – e.g., theaters and performing arts venues.

Due to the statutory restriction on using funds for “buildings for the general conduct of government,” things like courthouses and town halls cannot be funded.

Reminder on Environmental Review Requirements: EDI projects, like all projects funded by HUD, are subject to requirements under the National Environmental Policy Act (NEPA), HUD’s NEPA-implementing regulations at 24 CFR Part 50 or 24 CFR Part 58, and all applicable federal environmental and historic preservation laws, regulations, and Executive Orders. An environmental review must be completed before HUD funds and new commitments of non-HUD funds can be used on a project (24 CFR 58.22).

Reminder on Buy America Preference: The “Buy America Preference” in the Build America Buy America (BABA) Act within the Infrastructure Investment and Jobs Act (P.L. 117-58), requires that all iron and steel, construction materials, and manufactured products used in federally funded infrastructure projects be produced in the United States. If the project will be under construction (or complete) at the time of enactment, the recipient will not likely be able to meet the BABA requirements.

Taxpayer Identification Number/Unique Entity Identifier: Requesting offices are required to provide a valid Taxpayer Identification Number (TIN) and/or Employer Identification Number (EIN) for each potential EDI recipient, as well as the Unique Entity Identifier (UEI), which is an entity’s official identifier for conducting business with the federal government. If an entity does not presently have a UEI, they can register for one at SAM.gov. Applicants should have this information readily available to provide to your office.

Planning and administrative costs: These costs can be incurred after the date of enactment. However, if the recipient incurs these costs after enactment, but before the grant agreement is signed, they do so at their own risk. If the project is found to be ineligible by HUD or the grant agreement is never signed, HUD cannot reimburse those costs. Hard costs, such as construction, can only be incurred after the successful completion of the required environmental review.

In addition to meeting the above eligibility criteria, all projects must meet these Committee requirements:

- Administered by state, local, or tribal governmental entities or non-profit 501(c)(3) organizations.
- As a reminder, for-profit entities are not eligible for Community Project Funding
 - Be advised that projects for governmental entities to improve private properties pursuant to 42 U.S.C. 5305(a)(4) will be highly scrutinized and possibly not funded.
- Be advised that projects submitted under 42 U.S.C. 5305(a)(1)(C) will be disfavored if the only or primary purpose of the project is “beautification” or historic preservation, without evidence of other community development or economic development benefits.

EDI projects are not eligible for the reimbursement of expenses for soft costs (planning, administrative) incurred prior to the completion of a grant agreement between HUD and the grantee; a grant agreement and a completed environmental review are necessary for reimbursement of hard costs (construction activities).

Supplemental Questions:

1. Project Name.
2. General Project Description and why it’s needed.
3. What are the benefits of this project and why is it a priority?.
4. What is the total project cost, and what is the requested amount for Community Project Funding?
5. Are there community partners participating in this project?
6. Does the grantee have experience executing a federal grant?
7. Has the request been submitted to another subcommittee or committee this fiscal year? If yes, which one?
8. Is this project consistent with the primary objective of the community development program? Please describe who the project is intended to benefit.
9. What is the entity’s TIN/EIN?
10. What is the entity’s UEI?

11. What is the zip code of the project location? If the project spans multiple zip codes, please provide the zip where most of the appropriation will go.
12. Does the grantee have a Community Project Funding (CPF)/Congressionally Directed Spending (CDS) project that has not yet secured a signed grant agreement with HUD? This should include projects for which appropriations were made since FY2022. If yes, please provide:
 - a. The title of the project;
 - b. The fiscal year the CPF/CDS was enacted;
 - c. The awarding Member(s) and/or Senator(s);
 - d. The grant number as provided by HUD; and
 - e. The grant's status ("No Materials Submitted" or "Grant Review in Progress")

Other Questions helpful for submission

13. Can the project obligate all appropriated funds within 12 months after enactment? If not, what would be the expected date of obligation?
 - a. Obligation occurs when a project sponsor signs a grant agreement with a federal agency.
14. What is the estimated start/completion date?
15. Does the project have other public (federal, state, local) and/or private funds committed to meet match or cost-share requirements for costs related to construction, operations, and maintenance? If so, what is the source and amount of those funds? NOTE: EDI community project funding does not have a match requirement.
16. Has this project been requested by any other Member of Congress/Senator?
17. Has the request been submitted to another Subcommittee or Committee this fiscal year? If yes, which one(s)?
18. Does the project require an environmental review? If so, what is the status and/or outcome of the environmental review and National Environmental Policy Act (NEPA) category of action (if applicable)?
19. Is the project purpose primarily for services, new construction, rehabilitation, land or site acquisition, planning, or economic development?
20. Does the project primarily benefit persons of low-income or Tribal communities? If yes, please describe who the project is intended to benefit.
21. Who are the community partners participating in this project?
22. If the project purpose is for new construction or land or site acquisition, does it comply with local zoning requirements?
23. Is the project included or supported by an identified priority area within a state or local HUD Consolidated Plan? If yes, please provide a link to the plan.

24. Is the project intended to address climate change, resiliency, mobility, or equitable access to housing or services?

Frequently Asked Questions

The process of requesting and submitting requests for Community Project Funding can be confusing. Here are some of the most frequently asked questions about the process. Please check this section for answers to many of your questions before following up with my staff.

What is Community Project Funding?

Community Project Funding is generally defined as spending provisions in federal legislation that:

- Are requested on behalf of constituents or constituent organizations by a Member of Congress or Senator;
- Provide, authorize, or recommend a specific amount of discretionary budget authority, credit authority, or specific funding amount to a specific entity for a specific purpose;
- Meet the objective of a federal program under existing law

Community Project Funding is typically requested for projects with a clear purpose and goal above and beyond normal operating activities, for which private, non-federal funding is not available or sufficient. Community Project Funding will typically only serve as a partial contribution to the total cost of a project.

Community Project Funding is known as Congressionally Directed Spending in the U.S. Senate.

Is there a deadline for submitting a request?

Yes. The deadline to submit a Community Project Funding request for our office will be posted on our website. If you need additional time to procure additional pieces of Community Support, please let my team know in advance. My team is happy to work with you on a case-by-case basis.

What if I miss a deadline? Are any exceptions made if the bill hasn't been passed?

Congressional offices review numerous requests in a short amount of time. As a result, deadlines are strictly enforced. Once our office submits my requests to the full committee, I am unable to change or add requests. That is why it's important to submit your request before the deadline.

Are Community Project Funding requests publicly disclosed?

Yes. All requests for Community Project Funding submitted by the Member to the committee for consideration must be publicly listed on that Member's website, including the name and address of the requestor, the amount requested, and the justification for the use of taxpayer funds no more than 20 days after requests are submitted.

How many Community Project Funding requests will the Congresswoman make?

In FY 2027, we anticipate that Members of the House of Representatives will be limited to submitting **20** requests for Community Project Funding across the entire House Appropriations Committee. Full guidance is not out yet from the House Appropriations Committee.

Are there limitations on what Community Project Funding can be used for?

Yes. Federal Programs have very specific restrictions on how federal funds can be used. It is recommended that you closely examine this guide for references to eligible uses or limitations on use. Generally, funding cannot be used for debt service, recurring or routine expenses, reimbursement of costs, or projects that cannot demonstrate value to the community.

Can I request funding for “bricks and mortar”?

In general, no. One of the most common requests for funding is for building construction or renovation. Most appropriations accounts specifically prohibit this kind of project given the high demand.

There are some exceptions to this rule, including the Economic Development Initiative under the Department of Housing and Urban Development, and certain projects under the Military Construction Subcommittee, etc.. However, funding in these accounts is limited to specific purposes. See the relevant sections in this guide for more details.

Should I submit my request to both my U.S. Representative and U.S. Senators?

Yes. It is strongly recommended that you submit your request to all of your federal representatives. We recommend that you submit this application to both Senator Chris Van Hollen and Senator Angela Alsobrooks. You can find more information on how to apply to each office, as well as their deadline, on their website at <https://www.vanhollen.senate.gov/> and <https://www.alsobrooks.senate.gov/>

How should I determine how much funding to request?

The level of funding request should be justified by the project proposal, budget plan, and community support. Data on the range of projects can be found in this guide, though you should request what you can realistically use and spend in the Fiscal Year of the award.

A helpful indication may be to look at what a typical grantee may receive for a one-year allocation of funding for the specific program you are interested in requesting a Community Project Funding request for.

Please note that, due to changes in how House Leadership appropriated money in the last three fiscal years, my team asks that when making a request, please request an amount you can conceivably use even if that number seems higher than the average award for that account. Seeing as many project totals were cut by House Leadership, requesting a higher amount with the understanding it may be cut down may be a good strategy for getting closer to what you need for that project.

Is there a minimum amount one should request for Community Project Funding?

No, there is no minimum amount of funding to request.

What if I do not know the appropriate Account or Agency for my project request?

This guide has been prepared to outline information on available accounts. Requestors should use this guide to identify the appropriate account to identify one that meets the needs of your project or organization. Please call my office if you need additional information.

If my project is funded, will I receive the full amount I request?

There is no guarantee that an approved Community Project Funding request will be funded at the requested level. For example, in FY23, most projects were funded at the requested level. However, in FY25 and FY26, projects submitted by Democratic members were typically cut by anywhere between 30% and 80% by House Leadership. Please keep this in mind when requesting funding for your project.

Do I need letters of support?

Yes. The more community support for a project, the better. As listed above, letters of support from local, municipal, and state elected officials and stakeholders, as well as editorials and articles in local newspapers on the importance and necessity of the project are all important. Successfully approved and funded projects typically have a minimum of 10 pieces of community support, with the most successful applications having significantly more.

I submitted a request. Will it be approved? When will I know?

The FY 2027 Community Project Funding process is extremely targeted and this process is also very competitive. While my team will look at all requests, it is strongly recommended you explore other grant and funding sources as well.

The House Appropriations bills are typically considered in the late spring, with the Senate considering bills in late spring and over the summer. The House and Senate have to convene a “conference committee” to work out the differences in each of those bills.

The Committee requires all members to publicly disclose and post their final requests to the Appropriations Committee once the requests are made. Please remember, even if your project is supported in the House and/or Senate Appropriations bills, the funding level is subject to change until the final bill is signed into law.

This process can be long, but my team and I will be sure to keep all projects apprised of their status.

If my Community Project Funding request is granted, what is the process for getting the assistance and how quickly will I receive it?

In general, recipients of Community Project Funding will be contacted by the appropriate agency or office that oversees the account from which your project received funding. This cannot happen until the appropriations bill in which your project was listed is signed into law. The timing varies between departments and agencies – some may start the process within several weeks, others may take several months after the bill's enactment into law.

In most cases, you will have to complete and submit a grant application outlining the project's goals, cost estimates, and other requirements. You will work with a program or contract officer to complete these steps; they may have questions or additional requirements that could affect the timing of the obligations or outlay of funding to your organization.

The process of accessing funding and the time it takes to complete the necessary steps surprises many recipients who expect the money to be provided immediately.

Please be sure to take this into account when submitting a request.

Can I depend on receiving Community Project Funding for the same project more than once?

Generally, no. Most successful requests are one-time infusions of funding, generally used to launch a project or partially contribute towards the total cost of a project.

Given the limitations on the appropriations process for Community Project Funding, there is no guarantee that Congress will support a project for more than one year. However, you should discuss the needs of your project with your Congressional sponsor(s) if you believe that federal support will be needed beyond a single fiscal year.

Are all non-profits eligible?

501(c)(3) are eligible for **certain accounts** under Community Project Funding.

What is the anticipated timing for disbursement of Community Project Funding relative to the passage of the legislation?

When Community Project Funding is secured in the final spending bill, this will create a grant program for which the requester is the only eligible applicant. The requester will need to then “apply” for the grant that is their Community Project Funding before funds will be disbursed. In terms of timeline, this will vary by federal department/agency as each agency is different in how fast they disburse the funds. For context, regular grants usually take between 6-10 months.

Does Fiscal Year 2027 refer to the federal fiscal year or the state fiscal year?

This refers to the Federal Fiscal Year; Fiscal Year 2027 begins on October 1, 2026. Many states have a fiscal year that begins in July, Maryland included. It is not an issue if the state FY 2028 overlaps with federal FY 2027.

If the FY27 spending bill isn’t finalized until much later (i.e. December 2026), will Community Project Funding requests still need to be fully obligated and spent by September 30, 2027, or will they have 12 months after enactment to obligate funds?

The question on our Community Project Funding form regarding 12 months is primarily for planning purposes and to assess whether the recipient is ready to access the funds. If approved, Community Project Funding will be available for the same “period of availability” as other federal funds in the same account. That could be for one-year, two-years, or five-years depending on the project type.

Will Community Project Funding be taken from the overall funding pot for specific agencies?

For FY 2027, no more than 0.5% of discretionary spending was allocated to fund all Community Project Funding.

What limitations are there on non-federal matching funds? Can this come from private donations or is it limited to state and local funding sources? Would in-kind matches be determined at the programmatic level or is there a general rule?

Some programs allow for in-kind matches. The criteria differ based on what the laws for each agency and program allow.

If a non-profit did a membership campaign or donation drive and is able to show the number of donors, as well as that donors were predominantly local residents, would that be considered acceptable community support?

The House Appropriations Committee has recommended publicly available documents such as letters from community leaders, press articles, resolutions passed by local governments, and public planning documents be utilized for community support purposes.

Are capital projects eligible for Community Project Funding?

In certain cases, yes. This guide outlines which programs do and don't include capital funding.

Is there a preference for programmatic funding or Community Project Funding?

There is no preference, but the distinction between the two should help guide whether your request is programmatic in nature or a Community Project Funding request. Community Project Funding is for a specific governmental entity or non-profit to carry out a specific program or project in the spending bill at a specified level.

Can Community Project Funding be used for payroll and other operating expenses?

No. Community Project Funding is intended as a one-time infusion of resources to move a project forward that benefits the community, and using it for operating expenses would potentially create a budgeting cliff. There's no guarantee that if one receives Community Project Funding in one fiscal year there will be subsequent funding in later fiscal years for the same project.

When will we hear back about our request?

This will be a long and competitive process. First, my office will publicly post the requested Community Project Funding requests I will submit to the House Appropriations Committee. Then, the House Appropriations Committee will review and finalize a list of Community Project Funding requests from across the country to be included in the FY 27 House spending bill, which is expected to pass the House in the late summer or early fall. Any differences between the House and Senate Appropriations bills will need to be resolved in the early fall before passing and enacting a final spending bill for FY 27.

Other Federal Funding Resources

The Community Project Funding process is highly competitive, and while many worthy projects deserve support, funding limitations prevent many from receiving funding through the Congressional appropriations process. However, it is important to note that Community Project Funding represents only a small fraction of the discretionary funding available through competitive grants, loans, and other opportunities.

Below are several useful resources to explore other federal funding opportunities. Each Congressional office has staff dedicated to assisting organizations with seeking and applying for grants; you are strongly encouraged to contact your Congressional representatives to discuss how you can access any assistance from your federal elected officials.

Key Resources

To sign up for my Grants Newsletter, or to request Grant Assistance (Letters of Support or Research), go to my website at mcclaindelaney.house.gov/services/grant-applicants

.Grants.gov

Looking for other federal funding opportunities? At Grants.gov, organizations can search and apply for competitive grants from 26 different federal agencies. Grants can be searched by agency, type of applicants, intended purposes, and more.

SAM.gov

The official U.S. government website for people who make, receive, and manage federal awards.

GovLoans.gov

Interested in finding out which loans or benefits you may be eligible for? Here you can learn more about federal loans, determine which loans may be right for you, and more.

Benefits.gov

This tool will help you figure out what government benefits you may be eligible for. It also provides information on how to apply for these programs.

USA.gov

The official guide to US Government Information and Services.

Feedback

I hope this guide is helpful to you in compiling your Community Project Funding requests. My team has spent many hours putting our process and this guide together. Your feedback is essential to ensuring that this guide and process remain user-friendly. Please share any feedback you have with my staff.

Thank you.
